

DEVELOPING DATA LITERACY

Does your school make the most of pupil data deriving from assessments such as CAT4, Yellis/MidYIS, PTE/PTM and PASS? Does every teacher and member of support staff understand and utilise this data? Are annual comparisons made and patterns recognised by leadership teams? Are 'hidden pupils' identified? Are pupil and teacher mind-sets challenged? Can pupils set targets based on standardised assessments? Transinfo can unlock the potential of your historical and contemporary data. We can assist you to:

- Optimise data – removing unnecessary elements
- Summarise groups of pupil data allowing patterns to be identified
- Present data in accessible, visual forms
- Facilitate powerful discussions that shape 'Teaching and Learning'

Our data profile packs can transform disregarded data: Pupil profile—all relevant standardised data for each student on a single page with visualisations that make data accessible to all. Department profile—relevant standardised data, subject residuals and GCSE comparative performance indicators for every pupil summarised on a single page to facilitate departmental self-evaluation.

ENGLISH/MATHS DATA PACKS

Comparing achievement in English and Mathematics data packs enable schools to monitor and evaluate performance in the two GCSE subjects at the heart of Count, Read: Succeed. The in-depth analyses provide a thorough external insight to complement in-house evaluations. Contact us for a free standard 2013/14 copy for your school. Costs for 2014/15 copies are stated here:

Standard GCSE English and mathematics performance and contextual trends over four years; charts comparing performance with similar schools i.e. schools in the same free school meal band; and contemporary benchmarking performance based on examination outcomes.

8 pages - £40

Advanced In addition to the contents of the Standard pack, extensive comparative analyses between GCSE English and mathematics are provided and similar schools are detailed.

12 pages - £60

Comprehensive In addition to the contents of the Advanced pack, similar schools are identified in performance charts. Analyses of performance and benchmarking are based on examination outcomes and on all Y12 pupils derived from census figures.

16 pages - £100

PREPARING FOR INSPECTION

The inspectorate expect schools to employ a systematic approach to the assessment, recording and reviewing of each student's progress, along with appropriate interventions. Coherent use of data at all leadership levels is required if schools are to undertake self-evaluation in order to make improvement.

Transinfo can assist you in baselining, target setting and using external data to construct a 360 degree view of your school.

EVIDENCING VALUE ADDED

Transinfo have developed a number of approaches using standardised tests such as CAT4, Yellis, and PTE/PTM that show value added at GCSE. If you use these assessments and are interested in developing and demonstrating value added measures please contact us.

Staff discussion is at the heart of data literacy

PROFESSIONAL LEARNING SESSIONS

Transinfo provides professional learning training for teachers and leaders. The sessions are interactive, visual and maximise students' standardised data.

Sessions for whole staff and middle leaders

The difference we make – value added measures from Y8 to Y12
 Standardised data – what it tells us and what we should change
 CAT4 – a forensic examination of our results
 PASS – what three years of data really shows
 The hidden dimension - spatial ability and the overlooked student
 Underachievement, data and developing growth mind-sets
 Residuals, predictions, macros and performance – how well are we doing?

Sessions for leadership teams

Developing the culture of data literacy
 Single page pupil profile – maximising standardised data
 Value added measures – using our existing data to show impact
 Disturbing realities – what the data says about our school

Contact us to discuss your school's needs.

COMPLIMENTARY DATA PACK

A complimentary version of your school's 2013/14 advanced data pack has been emailed to your 'info@' address. If you have not received your school's pack, contact us and we'll email you a copy. The pack facilitates principals and leadership teams in school self-evaluation which leads into development planning and target setting. We are taking orders for our most recent range of data packs showing your schools performance for 2014/15.

Pack	Description	Cost*
Standard	School GCSE/A Level performance and contextual trends over four years; charts comparing performance with schools in the EA sub-region; and benchmarking performance. 12 pages	£60
Advanced	In addition to the contents of the Standard School pack, benchmarking trends and similar schools are identified. Four year contextual trends are also included. 16 pages	£80
Expert	In addition to the contents of the Advanced School pack, regional schools are identified in performance charts. 16 pages	£100
ALC	The pack contains comparative data of all ALCs associated with the region within which the school resides. ALC formations are those identified by the Department of Education.	£140
